

About AdvantaPure®

Positioned to anticipate and exceed the evolving needs of the pharmaceutical and biopharm industries, the AdvantaPure division of NewAge® Industries focuses on manufacturing tubing and Single-Use manifold tubing assemblies from AdvantaSil® platinum-cured silicone and AdvantaFlex® sealable and weldable TPE. The company specializes in molding manifold connections that offer benefits such as the elimination of leaks, entrapment and contamination.

AdvantaPure is ISO 9001:2015 certified, and many of its products meet USP Class VI, European Pharmacopoeia, FDA, NSF and ISO standards.

Products include:

- AdvantaSil® unreinforced silicone tubing
- AdvantaSil® high pressure silicone tubing
- AdvantaSil® ultra low temperature silicone tubing
- AdvantaSil® braid reinforced silicone hose
- AdvantaSil® wire reinforced silicone suction hose
- AdvantaFlex® biopharmaceutical grade tubing
- Single-Use molded manifold tubing assemblies
- BioClosure® container closures and inserts
- BioClosure® System Assemblies complete with bottles, flasks and carboys
- Stainless steel overbraided PTFE hose
- Wire reinforced EPDM hose
- Fittings of sanitary stainless steel or molded silicone
- Bioreactor tubing kits
- Hose identification solutions
- AdvantaPass® aseptic transfer system
- Customization and sterility assurance for Single-Use products

AdvantaPure is ...

Experienced With 20 years of practical knowledge under its belt, AdvantaPure has the skills to help turn your fluid flow concepts into reality.

Capable Highly-trained sales team members, on-staff engineers and material experts offer guidance along the way.

Focused on Quality The company's team members are devoted to product quality and ensure that both incoming and outgoing materials meet or exceed expectations. Products manufactured meet industry standards such as USP Class VI, FDA, ISO, NSF and European Pharmacopoeia.

Clean Most products are clean room manufactured and packaged, then stored in a separate warehouse. AdvantaPure is ISO 9001:2015 certified.

Flexible Want time released shipments over a two-year period? Not a problem. An assembly or other customization? Ask us.

Environmentally responsible Over 4,000 solar panels on the building's rooftop supply a substantial portion of the company's electricity needs.

It has also taken steps to improve energy efficiencies and properly dispose of municipal and electronic waste.

Stable AdvantaPure's parent company, NewAge Industries, has been in business since 1954. The company holds a 4A1 D&B rating, the highest credit rating given to a company of its size.

Growing A 43,000 sq. ft. expansion – the third expansion in eight years – was completed at the company's headquarters in August 2018. The space provided additional clean room suites for extrusion, molding, packaging and inspection, as well as offices for the Quality team. Two more expansion projects are currently in progress.

Employee owned NewAge Industries' team members own 100% of the company. Started in 2006, the company's employee ownership plan means that team members have a true stake in the success of the company and their own futures.

Eager to earn your trust and your business See why AdvantaPure has become one of the world's leading suppliers of Single-Use system components in the biopharm and pharmaceutical arenas.
